The Sustainability Revolution

The Data-Driven SIMA Smart Grid Revolution

The Path of Revolution

There is **ONLY** one way to transform the electric grid,

ONLY one way to modernize urban life,

ONLY one way to improve home automation,

ONLY one way to achieve universal connectivity,

ONLY one way to revolutionize the sustainability system.

Simple as this:

When you transform yourself, you transform everything.

We are excited to be at EDC Takeo today.

EDC Takeo has been very proactive and aggressive in implementing our solutions.

We are so proud to have you as part of the VP.Start family and we are proud as you chose VP.Start as your teammate.

We never think of EDC Takeo as a customer or a user.
You are part of our clan.

What Makes VP.Start Special?

We aspire to and prioritize “Innovation through Technology”

1

Innovation WITHOUT Technology = Daydreams

2

Technology WITHOUT Innovation = Toys on the Playground

Innovation through Technology moves us forward,
impacting the future.

Where is the sustainability revolution taking us?

From the conventional power grid
to the smart grid,

From the smart grid,
to a dynamic digital smart grid,

From a dynamic digital smart grid,
to a data-driven SIMA Smart Grid.

Why do we need a Data-Driven SIMA Smart Grid?

The Data-Driven SIMA Smart Grid changes everything.
It makes the grid more:

**More dependable,
More affordable,
More efficient,
More equitable,
More sustainable.**

MADE IN CAMBODIA! MADE FOR THE WORLD!

The SIMA Journey: Building our momentum

Everyone has their own SIMA Journey. EDC Takeo has its own the SIMA Journey.

- What is our **STORY**? Success is always “Idea-driven”
- What is our **IDEOLOGY**? “Be a voice, not a echo”
- What is our **METHODOLOGY**? Think, Try, Accomplish.
- What is our **AMAZING INNOVATIONS**? The 5 Missions and the Global Stage.

VP.Start is ready to move with EDC Takeo to a sustainable future.

Next, our team from VP.Start will share our 4 P's :

Our plans,

Our projects,

Our products, and

Our profitability.
